

Friday 2nd December

Goodness where did November go? The arrival of December with its advent calendar has come at exactly the right time as we have been working with numbers to 20 this week. What fun you can have with spotting numbers on the advent calendar at home and finding the number which is one more and the number which is one less.

We have come to the end of our unit on writing captions in literacy and the girls have done some super writing. They have been choosing pictures of food to write about. If you get any magazines or leaflets with Christmas food in they may well want to cut it out and write about it. Be warned.

We are learning the words for the nativity songs and we are sending home a copy in case they would like to practice them. Choir are going to help us sing them all. It would be great if we could all join in as well.
